Q-Arte 124 / Q86

DESIGN **STUDIO REGUITTI**

Q-ARTE è una linea dal design contemporaneo e minimalista in cui geometria ed essenzialità trovano massima espressione in ambienti sobri e moderni. Una superficie netta interpreta il rigore formale delle tendenze stilistiche più attuali.

Q-ARTE collection is characterized by contemporary and minimalistic design: its geometric and coherent lines are enhanced by modern and plain environments. A clear outer layer expresses the formal accuracy typical of the stylistic current trends.

PRODUCT NOTES

CODICE ESEMPIO
EXAMPLE ARTICLE CODE

Dalla composizione del codice parlante si possono individuare direttamente alcune delle caratteristiche del prodotto Reguitti. Nei primi tre campi viene identificato il codice del prodotto, nei due campi successivi la famiglia del prodotto, nei tre a seguire il codice della rosetta, mentre gli ultimi campi vengono utilizzati per la sigla/codice della finitura.

The composition of the code reflects the main specifications of the Reguitti product. In the first three fields the product code is identified, the next two fields are assigned to the product family, in the next three is indicated the rose type, while the last fields are reserved for the finish code.

REGUITTI
IL MONDO SCHLEGELGIESSE DELLE MANIGLIE

SCHLEGELGIESSE AND THE WORLD OF HANDLES

Grazie alla relazione diretta con i propri clienti e al continuo scambio di know-how con i rivenditori, il product brand REGUITTI ha saputo sviluppare uno tra i più vasti e completi cataloghi del settore in cui sono presenti più di 90 diversi modelli di maniglie per oltre 1.800 prodotti offerti.

L'intera produzione made in Italy è realizzata in materiali quali Ottone, Alluminio, Zama, Porcellana e comprende maniglie e accessori per porte interne e finestre, porte d'entrata, porte scorrevoli e porte d'hotel suddivise in gamme che rispondono alle molteplici esigenze tecniche e di stile del consumatore.

Thanks to a direct relationship with its customers and the continuous exchange of know-how with retailers, REGUITTI has developed one of the biggest and most complete catalogues in which there are more than 90 different handles models.

The whole production made in Italy is made of materials such as brass, aluminum, zamak, porcelain and includes handles and accessories for doors and windows, entrance doors, sliding doors and hotel doors divided into ranges that meet the different technical and stylistic needs of the consumer.

MADE FOR THE FUTURE

DESIGN

Rispettare un'idea armonica del mondo: è questo il principio con cui progettiamo il design dei nostri accessori.
Una spinta costante verso il nuovo e il non convenzionale, un punto di vista che mette insieme funzionalità e valore estetico, in linea con i più attuali trend di mercato.

The principle we follow when we design our accessories is to respect the harmony of the world.
This constant drive towards the new and the unconventional is a point of view that puts functionality and aesthetics together, in line with the latest market trends.

MATERIALI
MATERIALS

OTTONE.
La lega Ottone (composta principalmente da Rame e Zinco) è un materiale duttile, malleabile e ha una buona resistenza alla corrosione, fonde a più di 900°. Reguitti utilizza pani di ottone pressafinato norma UNI EN 1982 ENCB753S. Barra ottone a norma UNI EN12165 CW617N secondo il ciclo produttivo standardizzato.

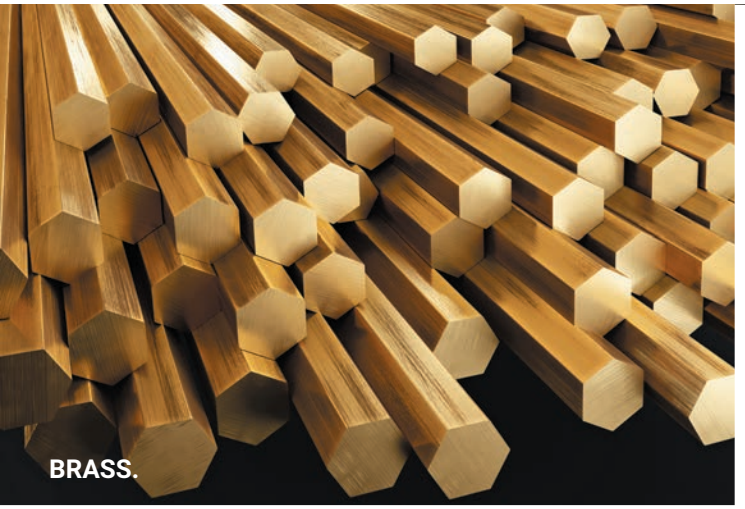

BRASS.
The brass alloy (composed mainly of copper and zinc) is a ductile material, malleable and has a good corrosion resistance, melts at over 900 °. The brass we use is: brass ingots according to UNI EN ENCB753S 1982-2008. Brass bar UNI EN12165 CW617N.

TEKNOMETAL.
La lega Zama (composta principalmente da Zinco, Alluminio e Magnesio) è particolarmente adatta alla pressofusione fonde a più di 400°. Reguitti utilizza lega di Zama primaria di tipo 410EN1774.

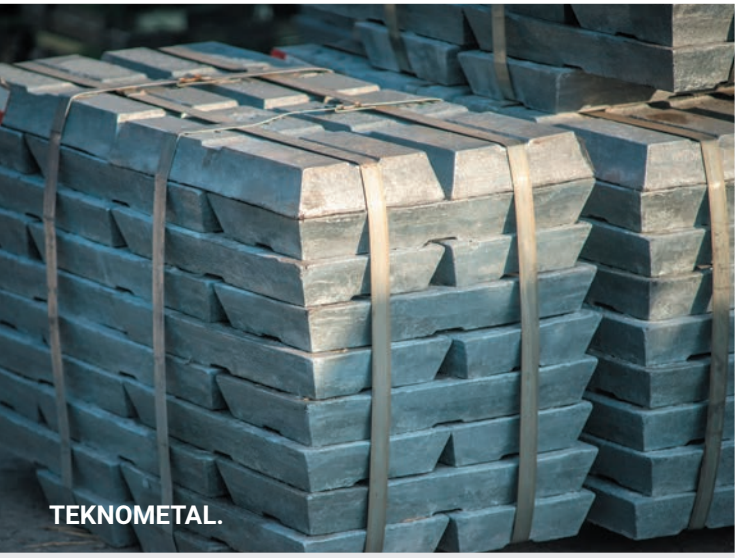

TEKNOMETAL.
Zamak alloy (composed mainly of zinc, aluminum and magnesium) is particularly suitable to casting, and it melts at over 400°. The Zamak alloy we are using is the EN 410 1774 type.

ALLUMINIO.
La composizione chimica e i parametri di alluminio estruso sono formulati per consentire la realizzazione di profili con sezione di media complessità, associati ad una accettabile resistenza alla corrosione. Reguitti utilizza estrusi in lega di Alluminio di tipo EN AW-6082.

ALUMINIUM.
The chemical composition and parameters of extruded aluminium are designed to allow the production of medium-complexity profiles featuring good resistance to corrosion.
Reguitti employs extruded aluminium type EN AW-6082.

SCHLEGELGIESSE
MADE FOR THE FUTURE

CERTIFICAZIONI DI PRODOTTO
PRODUCT CERTIFICATIONS

Certification **EN 1906**

Ai fini della standardizzazione europea è stata introdotta la norma DIN EN1906 che stabilisce requisiti e metodi di prova per maniglie e pomoli. La norma DIN EN1906 definisce solo i parametri di prestazione (le dimensioni delle guarniture non sono state prese in considerazione). Inoltre introduce un sistema di classificazione con un codice che permette di confrontare i vari prodotti.

For the purposes of European standardisation the DIN EN1906 has been introduced to specify requirements and test methods for door handles and door knobs. The DIN EN1906 defines only performance parameters (hardware dimensions have not been taken into account). It introduces a classification code system, allowing products to be compared.

Per il sistema R1 Reguitti ha ottenuto il GRADO 4 della categoria di utilizzo, che denota massima qualità e resistenza.
Per il sistema R16 Reguitti ha ottenuto il GRADO 3 della categoria di utilizzo, che denota ottima qualità e resistenza.

Reguitti obtained for the system R1 the GRADE 4 of the category of use that indicates best quality and resistance.
Reguitti obtained for the system R16 the GRADE 3 of the category of use that indicates excellent quality and resistance.

Certification **EN 13126-3**

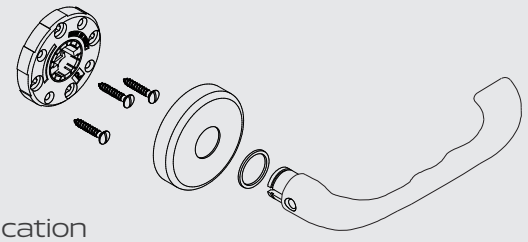

Questa parte della EN 13126 stabilisce i requisiti e i metodi di prova per la durabilità, la forza, la sicurezza e la funzionalità di maniglie per finestre e porte finestre. La norma si applica a maniglie Dreh Kipp (DK) anta ribalta ed a battente.

This part of EN 13126 specifies the requirements and test procedures for durability, strength, security and functionality of Tilt and Turn and Turn-Only window handle door height windows. The technical specifications are valid for Dreh Kipp (DK).

KNOW-HOW INTERNAZIONALE SUI SISTEMI DI MONTAGGIO

Grazie ad un Know-how internazionale sui sistemi di montaggio Reguitti dispone, oltre al sistema di montaggio standard europeo, sistemi di montaggio specifici dedicati ai mercati di riferimento: Nord America System, Scandinavia System, Germania System, Francia System e Australia System.

INTERNATIONAL KNOW-HOW ON MOUNTING SYSTEMS

Thanks to its international know-how, Reguitti can offer in addition to the European standard, dedicated mounting systems: North American System, Scandinavian System, German System, French System and Australian System.

PERSONALIZZAZIONE DEL PRODOTTO
CUSTOMIZED PRODUCT

La soddisfazione del cliente è molto importante per noi e il nostro impegno è concentrato per soddisfare le esigenze dei clienti. Ciò potrebbe includere la possibilità di creare un nuovo articolo in base alle esigenze del cliente.
In questo caso analizziamo la fattibilità e il suo costo per poi aprire un progetto. Ogni personalizzazione di un nuovo prodotto è possibile grazie a ciò che consideriamo il valore più importante, cioè le risorse umane, che a loro volta possono utilizzare le più moderne attrezzature tecnologiche.
Grazie alla nostra flessibilità e capacità di lavorare insieme al nostro cliente, nel corso degli anni abbiamo realizzato diversi prodotti personalizzati che sono stati aggiunti alla nostra vasta gamma di articoli.

Customer satisfaction is very important for us and our effort is concentrated to satisfy customer needs. This could include the possibility to make a new item according to customer requirements.
In this case we open a project to study the feasibility and its cost. Each realization of a new item is possible thanks to what we consider the most important value, that is human resources, which in turn can make use of the most modern technological equipment.
Thanks to our flexibility and capacity to work together with our customer, over the years we have realized several customized products that have been added to our wide range of articles.

LOGO PERSONALIZZATO
CUSTOM LOGO

Disponibile, a richiesta, la laserazione personalizzata del logo direttamente sul prodotto. (Quantità da definire con l'ufficio commerciale)

Thanks to laser technology, products can be marked with the customer's logo. (Available on request for quantities to be defined with the sales department)

APPLICAZIONE DEI PRODOTTI
APPLICATION OF PRODUCTS

Il product brand Reguitti presenta un´intera gamma di maniglie e accessori per ogni modello che vengono applicati su diversi materiali e in ambienti differenti della casa. (Porte ingresso, porte interne, porte WC, porte scorrevoli e finestre).

The Reguitti brand presents a whole range of handles and accessories for each model, which can be applied on different materials and in different areas of the house. (Entrance doors, interior doors, WC doors, sliding doors and windows).

ANTIGERM™

LA MANIGLIA CHE CI PROTEGGE
THE HANDLE THAT PROTECTS US

Le statistiche indicano tra le principali cause di malattia la contaminazione da contatto con batteri che vivono e si coltivano sulle superfici di contatto più comunemente utilizzate. Nelle cliniche, nelle scuole, negli asili, nei luoghi privati e pubblici in genere, le maniglie sono continuamente azionate da più persone e sulla loro superficie si depositano e si coltivano batteri che, in funzione del diverso grado di reazione del sistema immunitario che ogni soggetto umano possiede a diverso titolo, possono essere causa di stati di malattia più o meno gravi fino a provocare la morte nei soggetti più deboli. Sensibilità, responsabilità, prestigio: prevenire i batteri è una norma igienica di base, Antigerm™ è dimostrazione di responsabilità verso la salute pubblica e quella delle persone che toccano con mano una maniglia.

The statistics indicate among the most common causes of disease, the contamination with bacteria (more and more resistant to antibiotic treatment) that live and grow more commonly over the contact surfaces used by people. Clinics, schools, nurseries, private and public places in general, are the places where door handles are continuously activated by several people and on their surface bacteria and germs are settled and cultivated. According to the different reaction of the immune system of each human being, for various reasons, they may be the cause of serious illnesses that can lead to death in the weakest subjects; REGUITTI has invested in research and development recruiting specialized chemical staff, designating laboratories of research and exploring the panorama of antibacterial technologies to compare the different solutions found.

ANTIGERM™ UCCIDE
PIÙ DEL 99,99% DEI GERMI

COME FUNZIONA?
HOW DOES IT WORK?

Gli Ioni d'Argento vengono rilasciati lentamente dalla superficie Antigerm™ inibendo lo sviluppo dei batteri e provocandone la totale eliminazione (oltre il 99,99%)

The silver ions are slowly released from the Antigerm™ surface, inhibiting the growth of bacteria and causing almost their complete elimination (99.99%)

DURATA

L'attività del trattamento Antigerm™ è permanente e per tutta la vita utile del prodotto, 24 ore su 24, 7 giorni su 7, senza bisogno di essere rigenerato. Anche in caso di scalfitura della superficie gli ioni d'argento possiedono capacità di influenza garantendo l'attività antibatterica come dimostrato dai test di laboratorio.

DURATION

The activity of Antigerm™ treatment is permanent, throughout the useful life of the product, 24 hours per day and 7 days a week, without needing to be regenerated.
Even with enhanced scratches on the surface, the silver ions have the ability to continue their influence ensuring the antibacterial activity as demonstrated by laboratory tests.

RESISTENZA DELLA SUPERFICIE

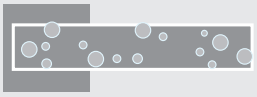

resistenza alla corrosione salina: oltre 1.000 ore (+ 66% rispetto a finitura Lucido Verniciato);
resistenza alla prova d'usura accelerata (sfregamento abrasivo*): oltre 4 volte la durata della finitura Lucida Verniciata senza trattamento Antigerm™.

RESISTANCE OF SURFACE

Resistance to salt corrosion: over 1,000 hours (+ 66% compared with polished lacquered finish); proof of accelerated wear resistance (abrasive friction): more than 4 times the duration of polished lacquered finish without Antigerm™ treatment.*

MADE FOR THE FUTURE

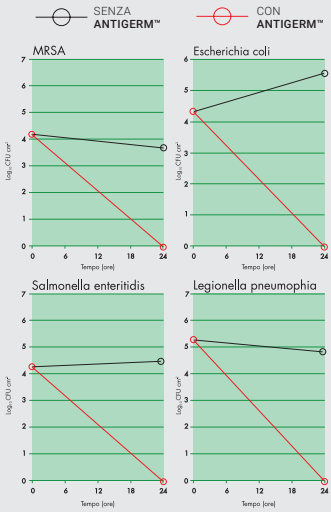

LA PRIMA GAMMA DI MANIGLIE ANTIBATTERICHE CERTIFICATE

THE FIRST RANGE OF CERTIFIED ANTIBACTERIAL HANDLES

Antigerm™ è il primo trattamento antibatterico certificato di Reguitti a base di resina composta da ioni d'argento e vernice all'acqua (senza solventi chimici). Questo trattamento è stato certificato dai laboratori inglesi dell'autorevole IMSL Ltd secondo la normativa **ISO 22196** (Determination of Antibacterial Activity).

Antigerm™ it is the REGUITTI exclusive antibacterial project, based on resin composed of silver ions and water based varnish (no presence of chemical solvents). The treatment has been certified from the British laboratories of the prestigious IMSL Ltd, in accordance with the regulations ***ISO 22196*** *(Determination of Antibacterial Activity).*

CERTIFICAZIONE

DESIGN **STUDIO REGUITTI**

APRI è un invito vivace e ironico a entrare. È un gioco stilistico dall'effetto vincente, al confine fra sensualità e pragmatismo. È la dinamicità di un segno grafico appena accennato, ma dalla forte personalità.

APRI is a vibrant and ironic invitation to enter a room. It's a stylistic game with a winning effect, on the border between sensuality and pragmatism. It is the dynamism of a faintly sketched graphic symbol, at the same time exuding a strong personality.

B-Arte 426 / Q86

DESIGN **STUDIO REGUITTI**

Adatta ad uno stile metropolitano, B-ARTE ha un tratto deciso e lineare. Sicura nella presa, leggera nei volumi, raffinata nell'abbinamento tra finiture diverse, rappresenta un piacevole connubio fra robustezza e creatività.

Ideal for metropolitan environments, B-ARTE has a straight and clear style. With its safe grip, ne shape, polished and various finishes, this handle is a pleasant combination of robustness and creativity.

B-Mini 143 / Q86

DESIGN **STUDIO REGUITTI**

B-MINI accosta finiture lucide e satinate in una rilettura in chiave minimal del concetto bicolor. Il connubio fra l'estetica accattivante e le ridotte dimensioni celebra un design concettuale di assoluta modernità.

B-MINI combines glossy and satin finishes in a minimalist reinterpretation of the two-tone concept. The combination of the handle's captivating design and small size pays tribute to a completely modern conceptual design.

Edna Z61 / Q86

DESIGN **STUDIO REGUITTI**

Un volume pieno accompagna le morbide linee di EDNA, una maniglia dalla presa sicura e ben definita. Le forme essenziali sposano le linee sinuose offrendo un oggetto al confine fra classico e contemporaneo, adatto a qualunque stile d'arredo.

EDNA is characterized by solid shapes and soft lines. It is an handle with a safe and well defined grip. The essential shapes, in conjuction with the sinuous lines, offer an object that is borderline between classic and contemporary, suitable for any style of interior design.

Golf J15 / Q86

DESIGN **STUDIO REGUITTI**

Nella collezione GOLF la materia si sveste di qualunque allegoria per mostrare una sezione netta della sua anima, robusta ed elegante al tempo stesso, diventando gioco di forme e prospettive.

The essence of the GOLF collection is stripped of allegory to reveal a cross sectional area of its robust yet elegant soul, creating a play of shapes and perspectives.

Inma 145 / Q46

DESIGN **STUDIO REGUITTI**

Le forme geometriche ben delineate della maniglia INMA si coniugano alla riduzione estetica che nulla toglie all'eleganza di questo oggetto d'arredo con finitura bicolor, anzi ne esalta il pieno rispetto delle proporzioni e la raffinata contemporaneità.

The geometric and defined shapes of the INMA handle are combined with aesthetic reduction, but this nothing detracts from the elegance of this piece of furniture with two-tone finishes. Rather, they enhance the full respect of the proportions and of the refined contemporary style.

DESIGN **STUDIO REGUITTI**

Un vero e proprio gioiello per la propria casa, un gioco di luci e riflessi creato da una cascata di candidi cristalli Swarovski incastonati in una forma dal design moderno: questa è la maniglia R-STRASS, una collezione capace di impreziosire qualunque ambiente.

A jewel for your home. Lightning and reflection effects created by a sequence of pure Swarovski crystals set in a modern design form: this is the R-STRASS handle, designed to highlight any setting.

Desy 137 / 416

DESIGN **STUDIO REGUITTI**

Sensuale e lieve nella plasticità delle sue forme, DESY rivive nelle atmosfere ricche di charme, di sogno, di glamour. Un risultato scultoreo, come fosse plasmato con le mani, per arredi dalla forte personalità.

Characterised by sensual, graceful and plastic shapes, DESY lives through glamorous dreamy atmospheres. A sculptural result, almost as if it where handmade, for furnishings with a strong personality.

Public 175 / 416

DESIGN **STUDIO REGUITTI**

Un sottile tratto che guida la presa in modo sicuro e confortevole. Quando spazio ed ergonomia diventano il filo conduttore del progetto, PUBLIC è la scelta perfetta per coniugare stile, performance e resa nel tempo.

A thin line for a firm and comfortable grip. With space and ergonomics as main theme of the project, PUBLIC is the perfect choice to combine style, performance and durability.

Mignon T33 / T33

DESIGN **STUDIO REGUITTI**

Arredi dal gusto tipicamente toscano, pavimentazioni in cotto e murature in pietra a vista compongono uno scenario raffinato ed elegante nel quale la maniglia MIGNON può trovare perfetto inserimento quale complemento a porte di pregiata fattura.

Typically Tuscan taste furnishings, terracotta floors and exposed stone walls make up a refined and elegant environment in which the MIGNON handle can be perfectly inserted as a complement to doors of fine workmanship.

Ovalino 191 / 416

DESIGN **STUDIO REGUITTI**

Ha i volumi di un pomolo, la forza di una maniglia, l'ironia di un gioco. È OVALINO e spiazza per la sua semplicità semantica e strutturale, per la sua essenzialità progettuale e l'incisiva matericità.

It has the volumes of a knob, the strength of a handle, the irony of a game. OVALINO is a design wrong-footing, in order to its semantic and structural simplicity, its essential design and its incisive substance.

Coppia pomoli girevoli su placca
Knobset on plate

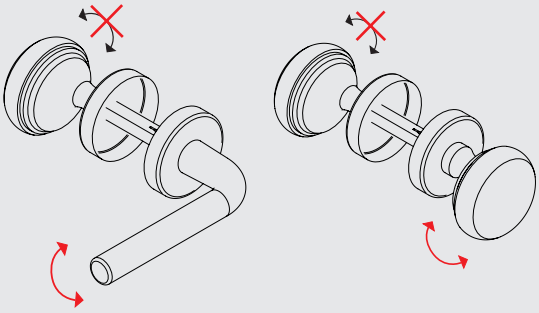

COPPIA FISSO/GIREVOLE
FIXED AND DOOR KNOBSETS

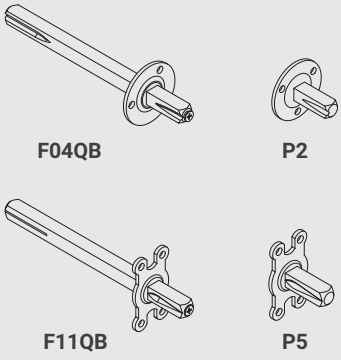

Mediante l'aggiunta della piastrina **P2 o P5** è possibile trasformare un pomolo girevole in fisso.

By installing P2 or P5 plates it is possible to change a turnable knobset into a fixed knob.

Mentre con l'utilizzo del ferro **F04QB** o **F11QB** (da specificare la lunghezza) è possibile trasformare la coppia pomolo in un set composto da pomolo fisso / maniglia girevole oppure da pomolo fisso / pomolo girevole.

While by using F04QB or F11QB spindles (length to be specified) it is possible to change the knobset into a set composed by fixed knob / turning handle OR by fixed knob / turnable knob.

Sistemi di montaggio / *Mounting systems*

R

Vantaggi / *Advantages*

AUTOREGOLABILE
per porte con spessore
Da 35 a 52 mm

SELF-ADJUSTABLE
For door thickness from
to 35-52 mm.

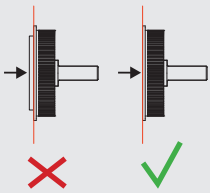

MONTAGGIO MANUALE VELOCE
senza l'utilizzo di utensili viti grani e silicone

SUPER FAST MANUAL ASSEMBLING
Without using tools, Screws and glue

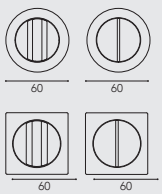

NESSUNA SPORGENZA
del nottolino dalla placca incasso

NO PROJECTION
of the thumb turn

PLACCHE INCASSO MAGGIORATE
a Ø 60 e ☐ 60x60 mm.

OVERSIZE PULL PLATES
Ø 60 and ☐ 60X60 mm

Quadra *Square*

Placche incasso per porte scorrevoli / Linea quadra
Sliding door plates / Square line

UMI

Utensile Monta Incontro

Positioning template

UMI è l'utensile che risolvere velocemente in 2 semplici passaggi i problemi legati al centraggio in cantiere della serratura all'incontro (contro piastra), se ne consiglia l'uso per i kit con serratura 6SR - 7SR - 16SR - 17SR.

1. Applicare UMI sulla serratura dell'anta scorrevole

2. Spingere l'anta scorrevole dolcemente contro il telaio della porta

3. La corretta posizione del foro per l'incontro e il fissaggio dello stesso sullo stipite vengono indicati dai tre punzoni incorporati nell'UMI

UMI is a positioning template, recommended for 6SR - 7SR - 16SR - 17SR locks, that can quickly avoid problems during the installation of the lock striker.

***1.** Apply UMI on the lock hook already installed in the sliding door.*

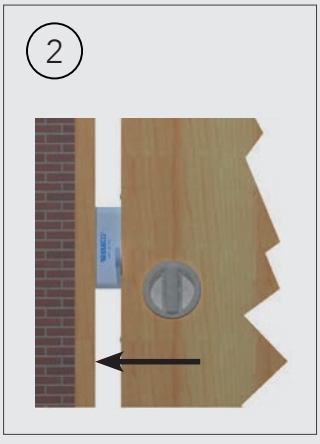

***2.** Gently push the door against the door frame.*

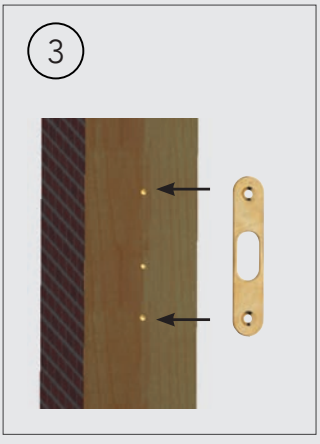

***3.** UMI leaves three dots indicating the correct position of the lock striker on the door frame.*

Maniglioni Alzanti
Pull handles for lift and slide doors

Info tecniche *Technical info*

Caratteristiche maniglioni alzanti

characteristic of the pull handles foor sliding door

- Maniglioni alzanti con doppio interasse 80 mm e 63 mm
- Movimento a 2 posizioni
- Ferro ⌀ 10

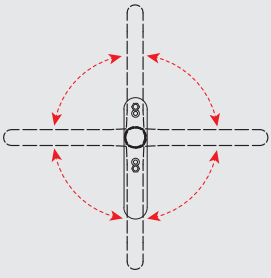

- Double center distance 80 mm and 63 mm
- Mechanism with 2 releases
- Square ⌀ 10

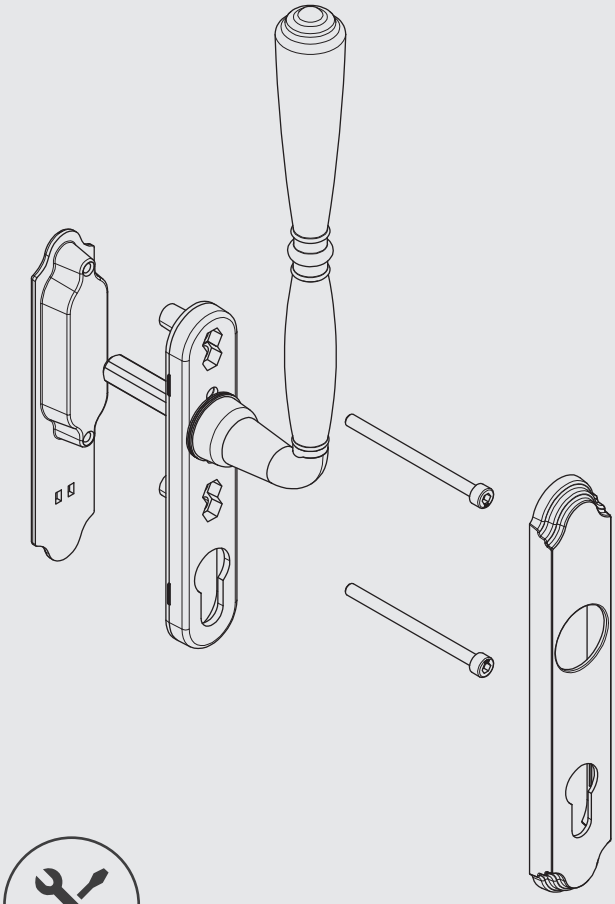

A richiesta movimento a 4 posizioni
On request mechanism with 4 releases

A richiesta movimento in metallo a 4 scatti
e possibilità di ferro ⌀ 7 e ⌀ 8

4 positions metal mechanism available on request with ⌀ 7 or ⌀ 8 mm spindle

A RICHIESTA - *On request*

Utensile di foratura ø22 mm completo di ferro quadro 8 mm e punta tonda.
ø22 mm drill miller with 8x8 mm spindle and drill bit.

BF22VM00M

ISTRUZIONI DI MONTAGGIO ROSETTE MINIMAL *ASSEMBLING TEMPLATE MINIMAL ROSES*

A - Porta con serratura inserita.
B - C Forare la porta assicurandosi che il foro Ø22 sia perfettamente in asse con il foro quadro della serratura. Consigliato l'utensile con montato punta quadra (1).
D - Inserire il ferro quadro 8 (3) in dotazione con la maniglia nel foro quadro della serratura.
E - F Posizionare l'apposita dima infilandola sul ferro quadro fissandola parallela al filo porta con del nastro adesivo. Eseguire il foro Ø22 in centro al punto di riferimento indicato sulla dima. Consigliato l'utensile con punta perforante tonda (2).
G - Applicare della colla adeguata sui
bordi delle rosette e bocchette ed inserirle negli appositi fori.
H - Assemblare le maniglie inserendole sul ferro quadro (3), serrare tenacemente il grano (4) con l'apposita chiavetta (5).

A - Door comprehensive of lock.
B - C Drill the Ø22 mm door handle hole and make sure that it is perfectly aligned with the square hole of the lock. Recommended tool with 8x8 mm spindle
mounted (1).
D - Insert the 8 mm (3) square spindle supplied with the door handle into the square lock hole.
E - F Insert the template into the square spindle and fixing it parallel to the door with adhesive tape. Drill the Ø22 mm key escutcheon hole centering the reference point shown on the template.Recommended tool with drill bit mounted (2).
G - Apply proper glue on the edge of roses and key escutcheons and insert them into the appropriate door holes.
G -Insert the lever handles in the square spindle (3). Tighten the grub screw (4) with the key supplied (5).

NOTTOLINO PER WC
WC TURN

PRATICITÀ E SICUREZZA CON IL NOTTOLINO PER PORTE DA BAGNO

PRACTICALITY AND SAFETY WITH THE WC TURN FOR BATHROOM DOORS

Con il nottolino WC REGUITTI dirai addio alla solita chiave per azionare il blocco serratura.

Questo consentirà maggior praticità non avendo più il rischio di perdere la chiave dalla serratura, ma soprattutto maggior sicurezza nei casi di emergenza. Infatti con l'uso di una comune moneta nell'apposito decomando a vista sarà semplice azionare la serratura dall'esterno.

Il funzionamento dei nottolini WC REGUITTI è semplice ed estremamente performante.

With the WC REGUITTI turn you will say goodbye to the usual key to operate the lock.

This will make it easier to use without the risk of losing the key from the lock, but above all it will make it safer in an emergency. In fact, with the use of a common coin in the appropriate visible emergency release will be easy to operate the lock from the outside.

The operation of REGUITTI WC turn is simple and extremely performing.

Nottolino applicato sulla parte lato INTERNO della porta da bagno
WC turn applied on the side part Interior of the bathroom door

Apertura di emergenza applicata sulla parte lato ESTERNO della porta da bagno
Emergency release applied on the EXTERNAL side of the bathroom door

VANTAGGI ADVANTAGES

PRIVACY E SICUREZZA
PRIVACY AND SECURITY

In casi di emergenza con l'uso di una comune moneta nell'apposito decomando a vista sarà semplice azionare la serratura dall'esterno.

In case of emergency release, with the use of a common coin in the appropriate visible emergency release, it will be easy to operate the lock from the outside.

PRATICITÀ
PRACTICALITY

Con il nottolino WC che sostituisce la chiave sparisce il rischio di perdere la chiave del bagno.

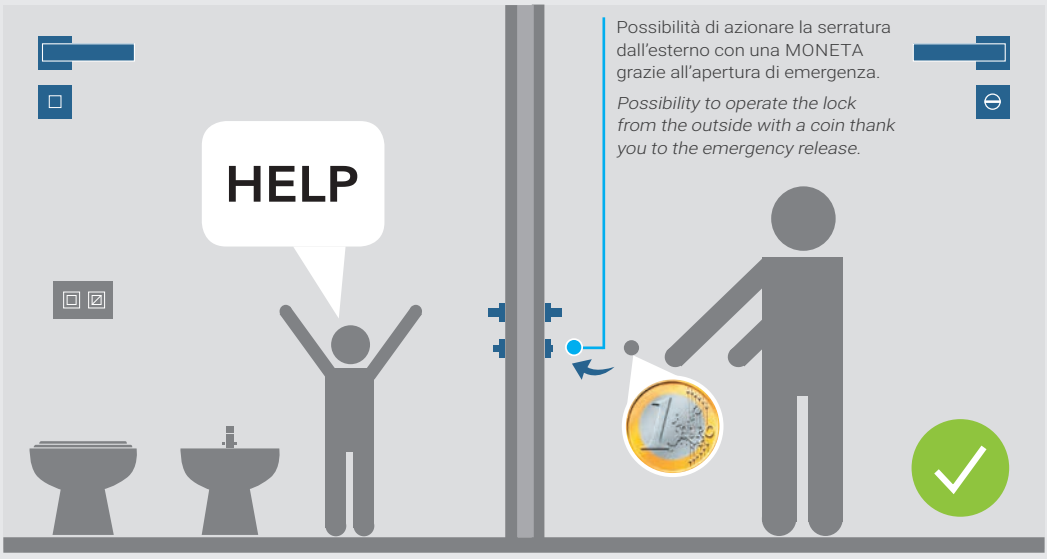

With the WC turn replacing the key, there is NO risk of losing the bathroom key.

ACQUISTO NEL TEMPO
PURCHASE IN TIME

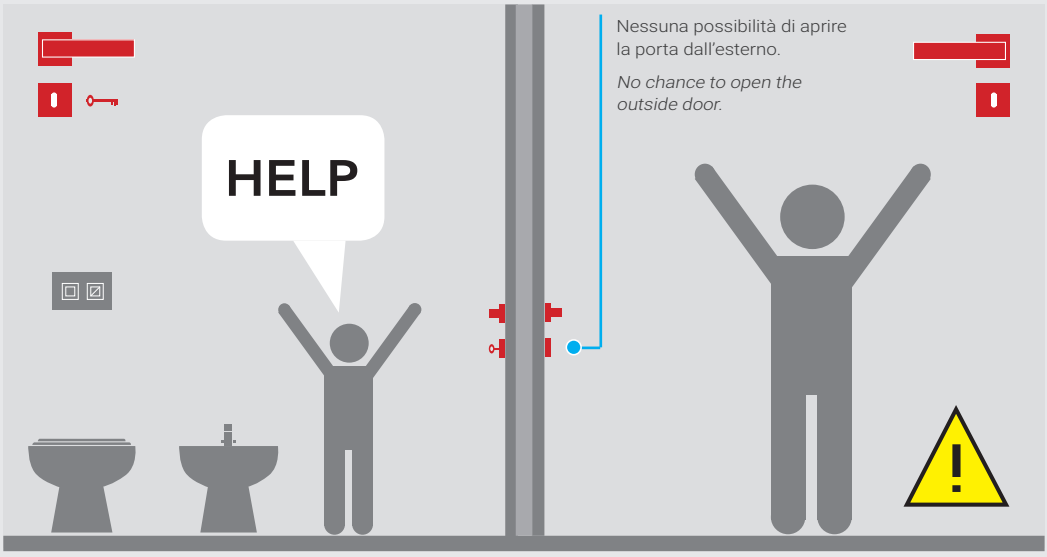

Grazie alla funzionalità del decomando esterno, l'intervento in casi di emergenza non comporta la distruzione della vostra serratura.

Thanks to the functionality of the external emergency opening, the intervention in case of emergency does not lead to the destruction of your lock.

MISURE CERNIERA
HINGE SIZE

MISURE CAPPUCCIO
HINGE COVER SIZE

Individuazione dell'articolo adatto:

- Il diametro A deve essere uguale al diametro A1.
- La profondità foro Bx2 deve essere uguale o superiore alla misura B1.
- La lunghezza Cx2 deve essere uguale o superiore alla lunghezza C1.
- La larghezza D deve essere uguale o superiore al diametro D1.

Finding the right article:

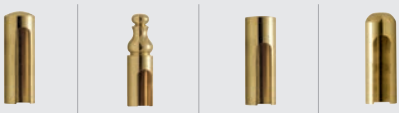

- *Diameter A must be equal to diameter A1.*
- *Bx2 hole depth must be equal or greater than measure B1.*
- *The length Cx2 must be equal or greater than length C1.*
- *Width D must be equal or greater than diameter D1.*

SERRATURE "CLASSIC" 026SR - 027SR - 028SR

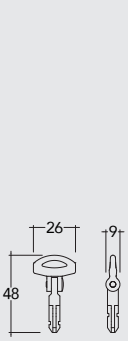

LOCKS "CLASSIC" 026SR - 027SR - 028SR

VANTAGGI
ADVANTAGES

1. NUOVO SISTEMA DI CHIUSURA A GANCIO
NEW HOOK CLOSING SYSTEM

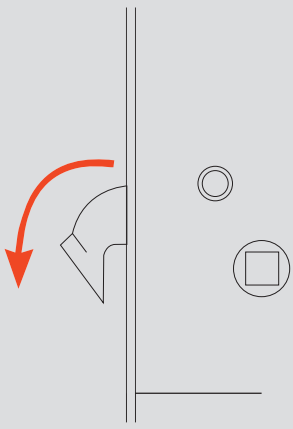

Grazie ad una maggior tolleranza tra gancio ed incontro, il nuovo sistema di chiusura a gancio consente sempre un'ottima chiusura della serratura anche a fronte di cedimenti verticali della porta (assestamento successivo all'installazione).

Thanks to a considerable hook-striker tolerance It allows a perfect lock closing, also with an after installation's vertical adjustment of the door.

SERRATURE "CLASSIC" 026SR - 027SR - 028SR

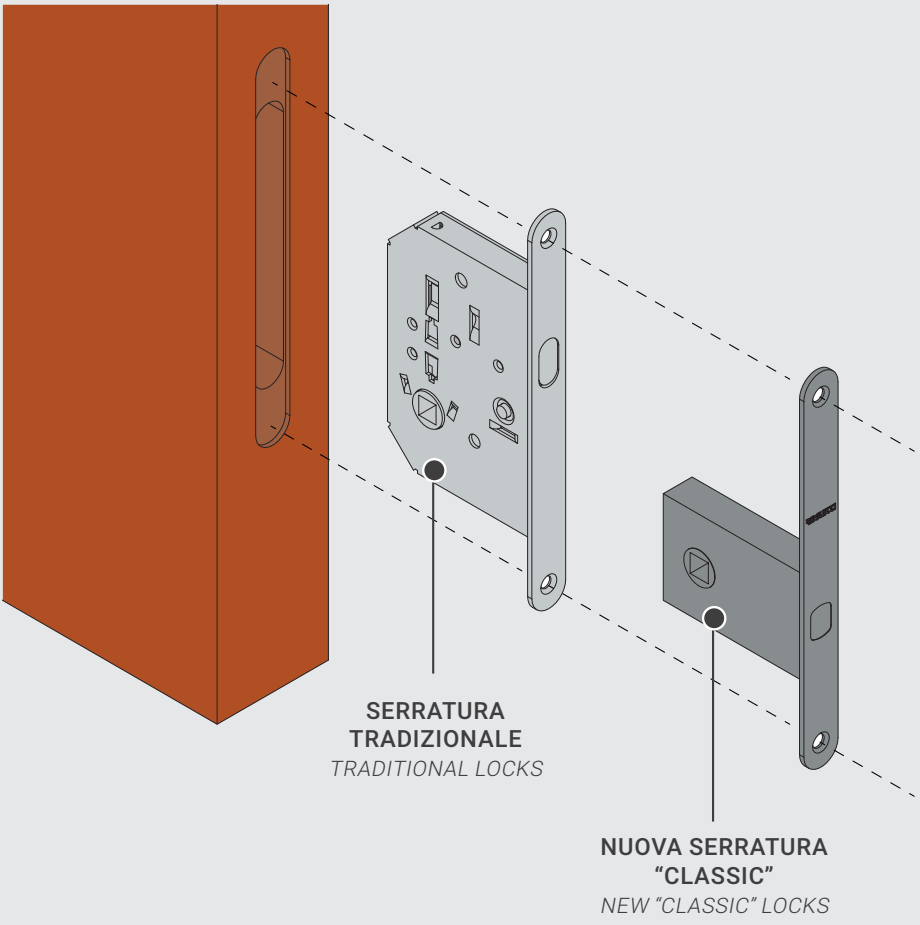

LOCKS "CLASSIC" 026SR - 027SR - 028SR

VANTAGGI
ADVANTAGES

3. STESSA FORATURA PORTA DELLE SERRATURE TRADIZIONALI
SAME DOOR CUT OUT OF TRADITIONAL LOCKS

La foratura del pannello rimane uguale alla foratura per le serrature tradizionali.

Same door drilling of traditional locks.

VANTAGGI
ADVANTAGES

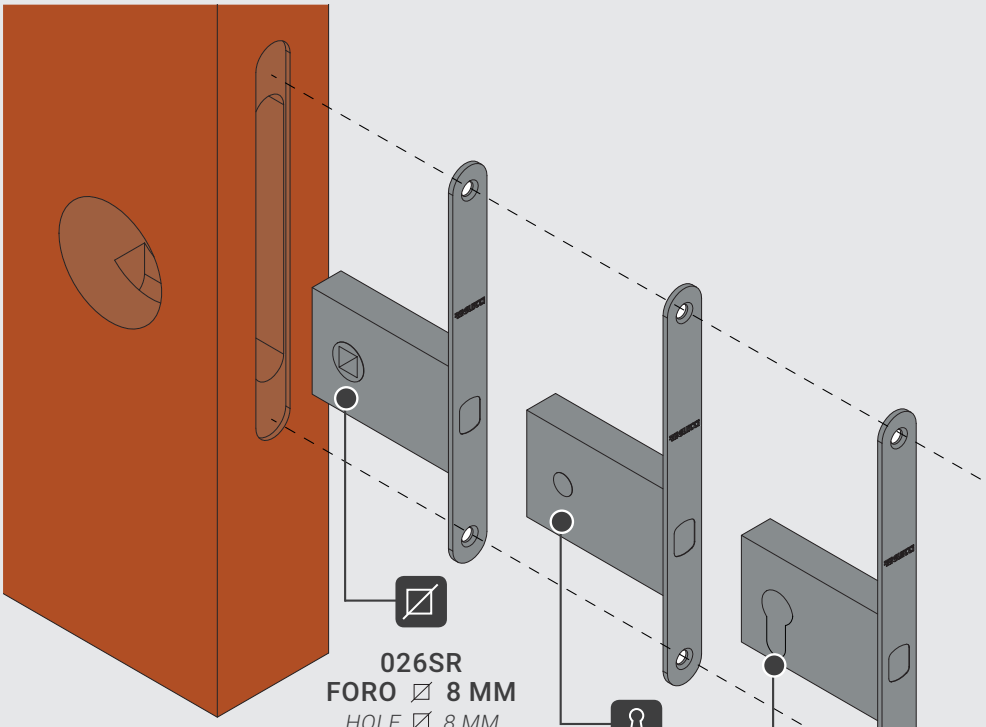

4. STESSA FORATURA PORTA PER SERRATURE CLASSIC CON FORO ⊠ 8 MM, CHIAVE E YALE

SAME DOOR CUT OUT FOR CLASSIC LOCKS WITH ⊠ 8 MM, KEY AND CYLINDER HOLE

Stessa foratura per kit con placche ad incasso ø 48 mm (foratura S1) e kit con placche con incasso ovale 535PI e Q35PI (foratura S4).
Adatte per pannelli già forati, permette di scegliere il tipo di chiusura al momento dell'installazione o un possibile cambio d'uso successivo.

For kits with recessed plates ø 48 mm (drilling S1) and kits with plates oval recessed plates 535PI and Q35PI (drilling S4).
Suitable for panels already drilled, and it allows to choose the type of closing during the installation, and possible future closing changes.

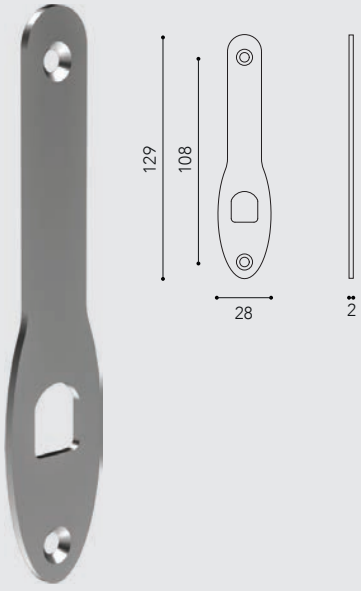

SOSTITUZIONE DELLE SERRATURE TRADIZIONALI

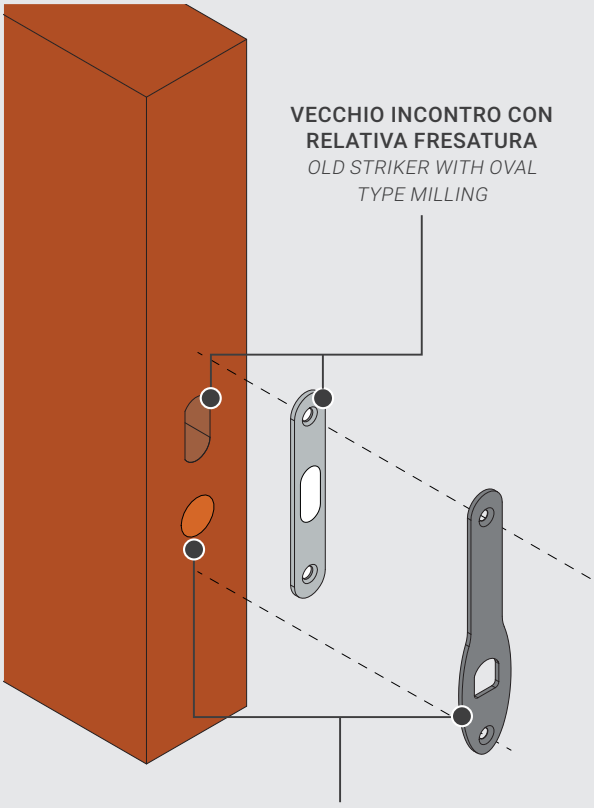

REPLACING TRADITIONAL LOCKS

INCONTRO PER SOSTITUZIONE

UNIVERSAL STRIKER FOR REPLACING SLIDING DOORS LOCKS

129 IN

VECCHIO INCONTRO CON RELATIVA FRESATURA

OLD STRIKER WITH OVAL TYPE MILLING

INCONTRO PER SOSTITUZIONE (129IN) CON RELATIVA FRESATA Ø25 mm

UNIVERSAL STRIKER FOR REPLACEMENT (129IN) WITH Ø25 MM TYPE MILLING

Durante la sostituzione delle serrature tradizionali con le nuove serrature "Classic 026SR - 027SR" bisognerà sostituire il vecchio incontro con l'incontro 129IN.
Questo incontro per sostituzione (129IN), coprirà perfettamente la vecchia fresatura sullo stipite della porta permettendo così la chiusura della porta con le nuove serrature 026SR - 027SR.

When replacing traditional locks with the New locks "Classic 026SR and 027SR" the old striker must be replaced with the new one (129IN)
The new striker for replacement (129IN) will cover perfectly the old milling on the door jamb, allowing the door to be closed with new locks 026SR - 027SR.

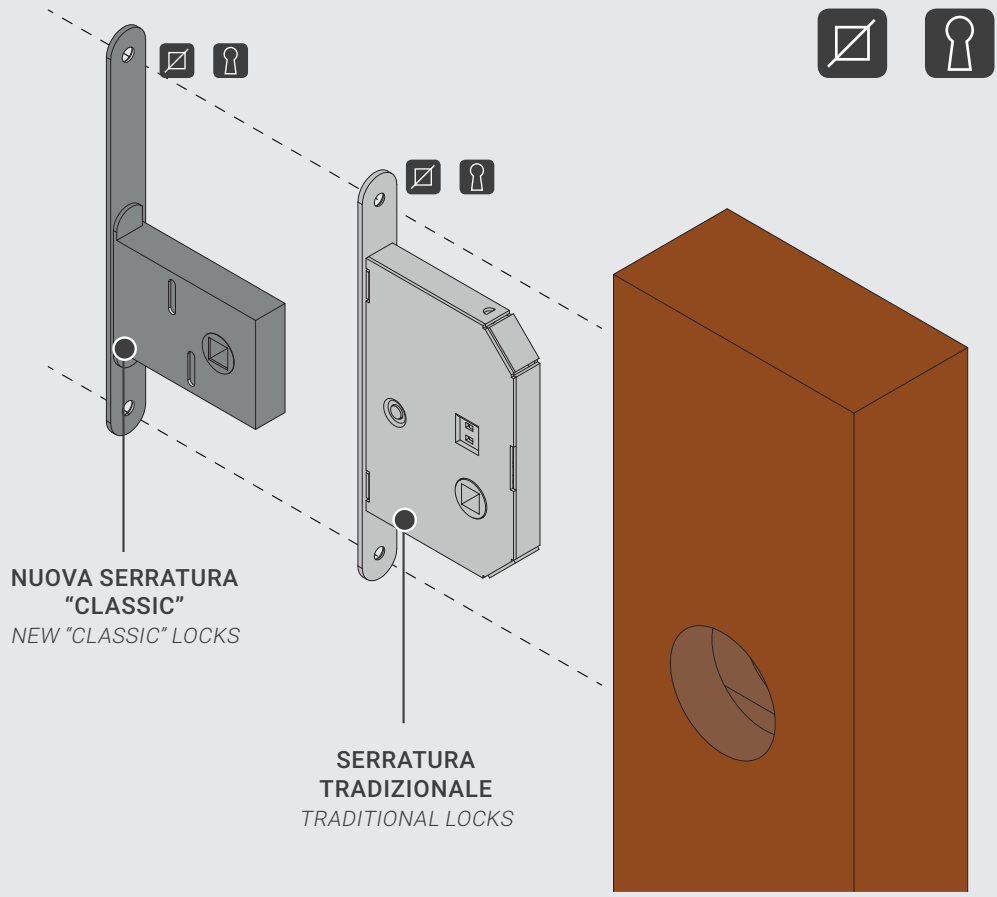

SOSTITUZIONE DELLE SERRATURE TRADIZIONALI CON FORO QUADRO E CHIAVE

REPLACEMENT OF TRADITIONAL LOCKS WITH 8mm SQUARE HOLE AND KEY HOLE

E' possibile sostituire le serrature tradizionali con foro quadro e chiave con le nuove serrature "CLASSIC" 026SR e 027SR. La fresatura della porta rimarrà uguale e sarà quindi possibile sostituire le vecchie serrature molto facilmente.
Questa sostituzione è possibile per i kit con incasso ø48 mm e sia per i kit con placche incasso ovali e rettangolari con nottolino o chiave.

It is now possible to replace traditional locks with square hole and key hole with new "CLASSIC" locks 026SR and 027SR. The same door milling will allow to replace the old traditional locks very easily.

This replacement is possible for both kits with recessed plates Ø mm 48 and kits with oval and rectangular recessed plates with thumbturn and key.

DK 024 CON FERRO AUTOREGOLANTE

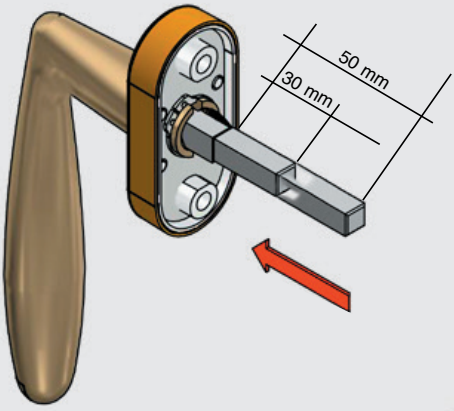

DK 024 WITH SELF-ADJUSTING SPINDLE

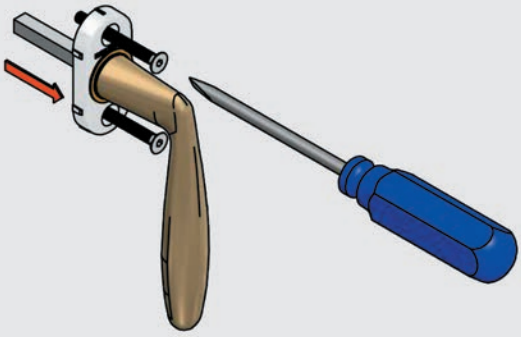

DK024 con movimento in metallo a 8 scatti preassemblato all'impugnatura per una installazione rapida, senza grano e con ferro autoregolante.

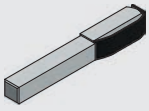

Autoregolazione del ferro.
Avvitando le viti il ferro si adatta automaticamente e gradualmente alle diverse profondità dei profili delle finestre.

DK024 with pre-assembled metal mechanism to windows levers for a faster mounting, with self-adjusting spindle.

Self-adjusting spindle
Spindle automatically adjusts to different windows profile depths by simply tightening the screws.

DK 024 CON FERRO A PRESSIONE

DK 024 WITH PRESSURE-ADJUSTING SPINDLE

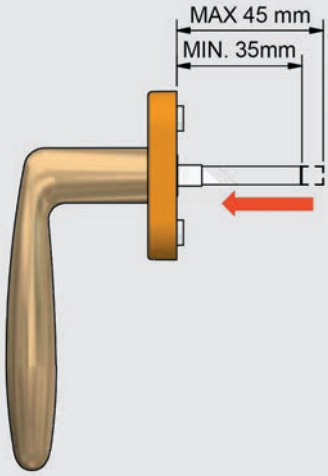

A RICHIESTA ON REQUEST

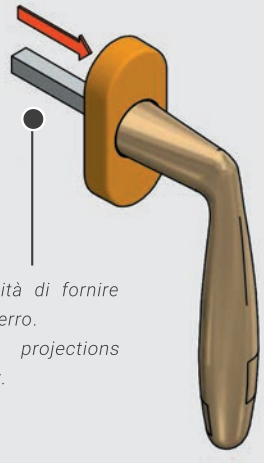

Dk024 con movimento in metallo a 8 scatti preassemblato all'impugnatura per una installazione rapida, senza grano e con ferro a pressione.

DK024 with pre-assembled metal mechanism to windows levers for a faster mounting, and pressure-adjusting spindle.

Regolazione manuale della sporgenza del ferro.
Prima di montare il dk sulla finestra, è possibile portare il ferro ad una misura inferiore (max -10 mm)

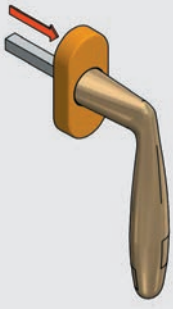

Manual Adjustment
Ability to reduce the spindle projection (by 10mm maximum)before installing the window handle

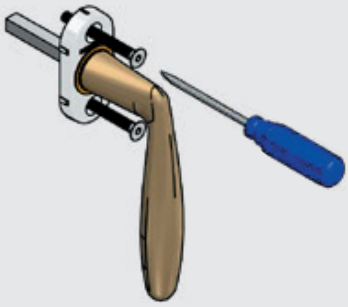

A richiesta possibilità di fornire ulteriori sporgenze ferro.
Different spindle projections available on request.

PRATICO - SEMPLICE - COMODO - VELOCE - SOLIDO

Fase 1
Impostare il ferro alla sporgenza desiderata
Set the spindle desired projection

Fase 2
Montare il DK sul serramento
Mount the DK on the window

SECURBLOCK
IL DK AUTOBLOCCANTE

SAFETY WINDOW HANDLE

SECURBLOCK è il DK autobloccante antieffrazione con pulsante che impedisce l'apertura della finestra alle manomissioni esterne della ferramenta.

SECURBLOCK is the self-locking DK safety window handle with push button.

CARATTERISTICHE:

1.Sistema applicabile a tutte le nostre maniglie.
2.Disponibile in tutte le finiture Reguitti.
3.Movimento in metallo.
4.Semplicità nel funzionamento, nel montaggio sul serramento, nell'intercambiabilità delle rosette esistenti.
5.Intercambiabilità su tutti i DK gia nel Vostro magazzino.

CARATTERISTICHE:

1.System suitable to all of our handles.
2.Available in all Reguitti finishes.
3.Metal Mechanism.
4.Simple operation and easy window assembly, and interchangeability with existing rosettes.
5.Interchangeability with all the DK already in your warehouse.

TECHNICAL INFO DK AND TK

APPLICAZIONE DI MOVIMENTO DK A 4 SCATTI PER FINESTRE CON APERTURA AD "ANTA RIBALTA" SU PLACCHE MARTELLINA

APPLICATION OF 4-STEP DK MOVEMENT FOR "TILT AND TURN" WINDOWS PLATES

L'utilizzo del movimento DK 025 speciale in larghezza e spessore, di esclusiva fabbricazione REGUITTI, consente al serramentista di installare guarniture dk (con qualsiasi impugnatura) anche su placca da martellina come raffigurato in pagina e senza necessità di fresature di adattamento grazie al completo incasso del gioco nello spessore della placca.

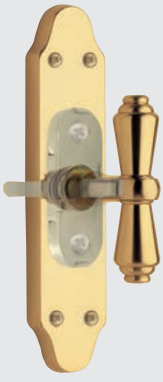

The use of the DK 025 movement, special in width and thickness, made exclusively by REGUITTI, allows the window and door manufacturer to install dk cranksets (with any handle) even on the window plate as shown on the page and without the need for adaptation milling thanks to the complete recess of the play in the thickness of the plate.

Possibile su placche 040 KM, 189 KM in quanto creata sul retro adeguata sede.
Possible on plates 040 KM, 189 KM as it was created on the appropriate back of the building.

AVVERTENZE
WARNINGS

Si raccomanda di:
• Spolverare o pulire il prodotto con panni morbidi o scamosciati.
• Lavare con acqua tiepida o detergenti a pH neutro diluito.
• Effettuare la pulizia dei prodotti verniciati e/o galvanizzati almeno ogni 2 mesi (se gli articoli sono posti all'esterno, si consiglia ogni mese). Nel caso di prodotti installati in località o in zone con molte salinità, si consiglia di effettuare la pulizia ogni due settimane (se gli articoli sono posti all'esterno, si consiglia ogni settimana).

Evitare nel modo più assoluto:
• Di installare il prodotto in ambienti freschi di pittura (attendere l'essicazione completa di qualsiasi tipo di tinteggiatura, su muro, legno o su pavimento).
• Di installare il prodotto nelle vicinanze di parquet in legno appena posati e verniciati, pavimenti in marmo e granito appena levigati quindi montare le guarniture SOLO DOPO aver eseguito tutti i lavori.
• L'uso di sostanze corrosive contenenti acqua ossigenata, cloruri e fluoruri.
• La scalfitura ad opera di oggetti quali pagliette abrasive, chiavi, anelli,cacciaviti, viti ed altri oggetti appuntiti

Attenzione: anche i prodotti con trattamenti speciali PVD, se all'esterno, devono essere **TASSATIVAMENTE** puliti ogni 4-6 mesi, ogni mese se installati in località marine, o in zone con molta salinità, questo per togliere eventuali tracce di calcare o ruggine aerea, dovute al deposito a seguito di un naturale influsso ambientale.

It is recommended to:
• Dust or clean the product with a soft cloth or chamois leather.
• Wash with warm soapy water or diluted neutral pH detergents.
• Clean the varnish and/or galvanized products at least every 2 months (if the items are outside, it is recommended to do it every month) In the case of products installed in areas with a lot of salinity, it is recommended to clean every two weeks (if the items are outside, it is recommended to do it each week).

Avoid, in any way:
• To install the product in environments recently painted (wait for the complete drying of all types of painting, on the wall, on the wood or on the floor).
• To install the product nearby newly laid wooden floors and painted, marble floors and granite just smooth. Therefore please mount the handles and accessories ONLY AFTER the end of these works.
• The use of corrosive substances containing hydrogen peroxide, chlorides and fluorides
• The scratching by blunt objects such as scouring pads, keys, rings, screwdrivers, screws or other sharp items.

Attention: even products with the special treatments PVD, if mounted outside, must be ***ABSOLUTELY*** *cleaned every 4-6 months; every month if they are installed in seaside resorts, or in areas with a lot of salinity, in order to remove any trace of aerial calcareous or rust due to the deposit as a result of a natural environmental influence.*

Espositori
Displays

Ogni buon prodotto necessita di una buona comunicazione e di una particolare attenzione all'esposizione. Il brand Reguitti si rinnova con nuovi modelli di espositori girevoli e con pannelli ad aggancio magnetico adattabili a varie soluzioni di esposizioni da banco, girevoli o a parete.

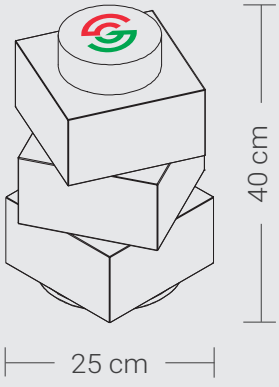

Every good product requires an effective communication and specific attention to presentation. Reguitti presents a whole new range of rotating and magnetic displays suitable for various exposition solutions, such as table, self-standing or wall-mounted units.

1.

ESPOSITORE DA BANCO GIREVOLE A 12 MANIGLIE

Desk rotating display with 12 handles

Code: ZESB12

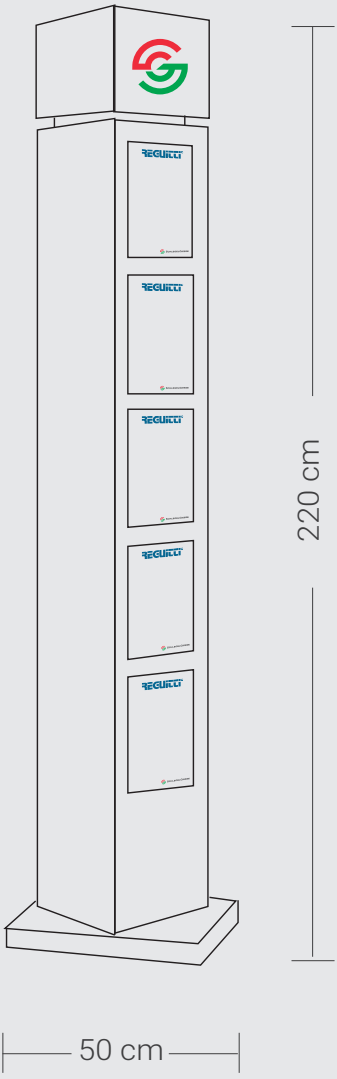

ROTATING

2.

ESPOSITORE TOTEM BIFACCIALE GIREVOLE A 10 PANNELLI

Two-sided vertical rotating display with 10 panels

Code: ZJ00ES010

ROTATING

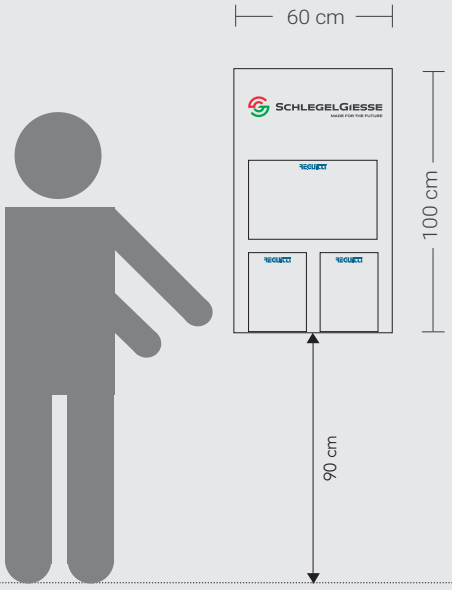

3. ESPOSITORE A PARETE 60X100 CM

Wall display 60x100 cm

Code: ZES100

MAGNETIC

Espositore a parete composto da:

Wall-mounted display, composed by:

- Base in legno 60x100 cm
- Soluzione modulare a scelta con pannelli in legno delle seguenti misure: 22x30 - 22x65 - 50x30 cm (spessore 1,9 cm)
- Applicazione pannelli con sistema magnetico
- Comprensivo di campionatura

- *Wooden base 60x100 cm*
- *Modular solution with choice of wooden panels in the following sizes: 22x30 - 22x65 - 50x30 cm (thickness 1,9 cm)*
- *Panels with magnetic mounting system*
- *Samples included*

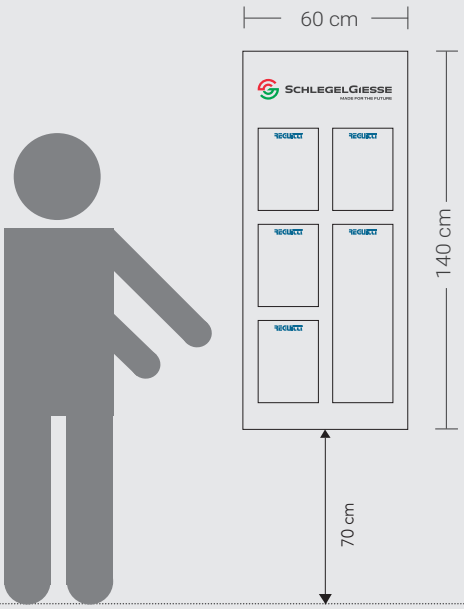

4. ESPOSITORE A PARETE 60X140 CM

Wall display 60x140 cm

Code: ZES140

MAGNETIC

Espositore a parete composto da:

Wall-mounted display, composed by:

- Base in legno 60x140 cm
- Soluzione modulare a scelta con pannelli in legno delle seguenti misure: 22x30 - 22x65 - 50x30 cm (spessore 1,9 cm)
- Applicazione pannelli con sistema magnetico
- Comprensivo di campionatura

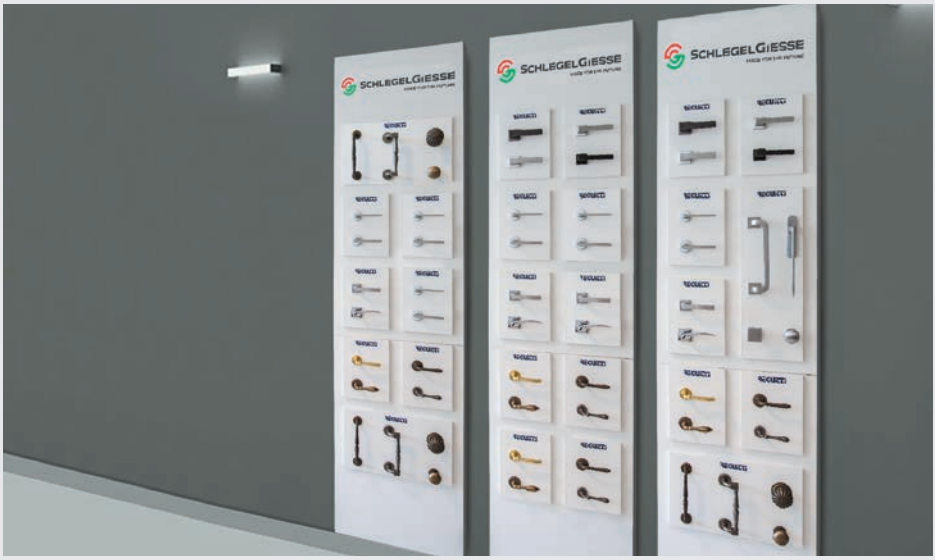

- *Wooden base 60x140 cm*
- *Modular solution with choice of wooden panels in the following sizes: 22x30 - 22x65 - 50x30 cm (thickness 1,9 cm)*
- *Panels with magnetic mounting system*
- *Samples included*

5. ESPOSITORE A PARETE 60X240 CM

Wall display 60x240 cm

Code: ZES240

MAGNETIC

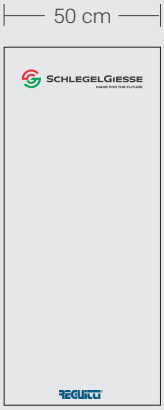

Espositore a parete composto da:

Wall-mounted display, composed by:

- Base in legno 60x240 cm
- Soluzione modulare a scelta con pannelli in legno delle seguenti misure: 22x30 - 22x65 - 50x30 cm (spessore 1,9 cm)
- Applicazione pannelli con sistema magnetico
- Comprensivo di campionatura

- *Wooden base 60x240 cm*
- *Modular solution with choice of wooden panels in the following sizes: 22x30 - 22x65 - 50x30 cm (thickness 1,9 cm)*
- *Panels with magnetic mounting system*
- *Samples included*

6. PANNELLI SINGOLI
Single panels

Code: ZES003

- Pannello 50x110 cm (spessore 1,9 cm)
- Aggancio sul retro (NON magnetico)
- Comprensivo di campionatura

- *50x110 cm panel (thickness 1,9 cm)*
- *Rear mounting (NO-magnetic)*
- *Samples included*

Code: ZES022

- Pannello 50x30 cm (spessore 1,9 cm)
- Senza aggancio magnetico
- Comprensivo di campionatura

- *50x30 cm panel (thickness 1,9 cm)*
- *Without magnetic system*
- *Samples included*

Code: ZES065

- Pannello 22x65 cm (spessore 1,9 cm)
- Senza aggancio magnetico
- Comprensivo di campionatura

- *22x65 cm panel (thickness 1,9 cm)*
- *Without magnetic system*
- *Samples included*

Code: ZES021

- Pannello 22x30 cm (spessore 1,9 cm)
- Senza aggancio magnetico
- Comprensivo di campionatura

- *22x30 cm panel (thickness 1,9 cm)*
- *Without magnetic system*
- *Samples included*
